AFTER EIGHTEEN YEARS

A DIVORCED HUSBAND AND WIFE RE-

ENTERED.

Chattanooga Times, 20th.

Mr. John Walraven, the head binder

of the Times Bindery, yesterday received

the tidings of the reconciliation of

his mother and father, which affords

one of the strangest stories that has ever

come under our observation. The fol-

lowing are the facts about the case:

Mr. Walraven, as is well known, is

enlisted in the Confederate army in 1863,

as a private, at Marietta, Ga. His

family then consisted of a beautiful

young wife and three children. When

he returned home at the close of the

war his wife and three children were

not to be found. He learned that she

had been persuaded, when the Federals

occupied that country, that her safety

was in going North. For some time

no tidings came of her whereabouts,

when at last he heard that they were

living in Kentucky. He was such an

ardent rebel that he could not go to

them with any degree of safety, and

his wife refused to return to her de-

serted and devastated home, and from

this disagreement he instituted proceed-

ings for divorce, which was granted.

Mr. Walraven shortly afterwards mar-

ried a worthy lady of Marietta, and his

divorced wife, about the same time

was joined in marriage to a gentleman

residing near her Kentucky home, and

a child resulted from both marriages.

By some strange coincidence, both

second husband and wife died during

the month of November, 1878. During

the period elapsing between the suit

for divorce, 1865, and 1878, neither

party had heard a word from the other.

About the time of the death of his

stepfather, Mr. Walraven felt for Ma-

rietta to search for his father, not know-

ing then that he had married a second

time, and after considerable difficulty

found him, although greatly changed

during the thirteen years' separation,

but still strong in his attachment for

his first family. From this visit a

correspondence sprang up between

himself and his divorced wife, and in

PROBLEM OF LIFE.

From the Columbus Echo.

The mind of man it seems has ever

been burdened with something in the

line of probation; but like the uncul-

tivated plant of the forest, it leaps forth

when matured, or, like Moses on the

Mount of Sinai, it gazes in admiration

for something beyond. We see by

glancing back through the dim vista

of the past ages, and tracing on the

footprints of our forefathers, that there

are some left on record for a guiding

star for our existence. Not only so,

but we find by turning

back the dusty pages of centuries that

one great and good man hath said:

"Every man is the architect of his own

fortune." And this is true of every

school-boy in our land; if he endeavors

to climb the hill of science he must

work his own way through, in order

that he may be honored by fellow-

countrymen; or, if he is attempting to

follow out the pleasures and vanities of

this world and face its trials and dif-

ferences, which will ever impel his

progress, he must rely upon his own

exertion. If he is striving to ascend

the ladder of science and knowledge,

there is no excellency without great

labor. Work! the great master-key

of this problem, and of the universe,

has thrown wide the prison doors of

darkness; which, if pursued, will

achieve the greatest conquest the civil-

ized world has ever known. Labor is

the great mainstay of civilization and

refinement. Without it, our country

would be a barren waste, our fields un-

cultivated, and man, created in the

image of his Creator, would be found

in the galling chains of vice and igno-

rance. So every individual must, by

increasing labor and perseverance, work

out his own destiny in this world.

Clay, Webster, Washington and even

Manney, whose bodies have long since

mouldered back to their mother dust,
